RESPONSE UNDER 37 CFR 1.111

Dear Madam:

This is in response to the Office Action mailed August 14, 2002. The following remarks and amendments are respectfully submitted.

In the Drawings:

The Examiner objected to drawings because Figure 7 indicates the size of an angle using a comma in place of a period (“1,73” should be “1.73”).

In response, Applicant amends the drawing accordingly as shown in the clean and marked copies of the amended drawing.

The Examiner also objected to the drawings under 37 CFR 1.83(a) because the drawings must show the feature of the invention specified in the claims. Specifically, the Examiner stated that the two sheets of plastic material with a width of 2mm each (claim 3) and the electrical circuitry (claim 17) must be shown or the feature(s) must be canceled from the claims.
